📄 Summary

Senior React Developer with 6+ years of experience designing and building scalable, high-performance web and mobile applications using React, Next.js, TypeScript, and React Native. Skilled in front-end architecture, component reusability, and performance optimization, with a consistent record of improving Core Web Vitals and accelerating delivery through reusable design systems and well-structured codebases. Experienced delivering AI-powered platforms and collaborating on international, cross-functional projects with leading technology and research organizations. Comfortable working in Agile/Scrum teams, mentoring developers through code review, and communicating clearly with distributed, English-speaking stakeholders

🧠 Skills

- **Languages:** JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Next.js, React Native, NestJs, Redux Toolkit, Redux-Saga, React Query
- **Styling:** HTML5, CSS3, Tailwind CSS, LESS, Sass, MUI, Ant design, shadcn ui, Hero Ui
- **Architecture & Integration:** Front-End Architecture, GraphQL, RESTful APIs, Node.js, Monorepo Management
- **Tools & Practices:** Git, Figma, Storybook, Jest, Playwright, PWA, Agile/Scrum, Prompt Engineering, Cursor, claude code
- **Professional Skills:** Problem-Solving, Mentoring, Cross-Functional Collaboration, English Communication

🎓 Education

Bachelor of Electronic Engineering
Hamadan university

2013 – 2018 | Hamadan, Iran

🧰 Professional Experience

Impact AI | full time 🔗

06/2024 – 01/2026 | Austria

React developer | (1 year and 6 months)

- Built an **AI-powered** platform to monitor and analyze AI products, using **AI agents** to automate workflows with partnership of **Microsoft** startups
- Designed and implemented clean, user-friendly UI using **NextJs, Figma,...**
- Introduced **HeroUI** and improved design consistency and component reuse
- Set up and maintained a **monorepo** for better scalability and team collaboration
- Added **Storybook** for component documentation and supported **Unit testing**
- Played a key role in designing and implementing the Hera 🔗 project in collaboration with **ESA(European Space Agency)** and **Microsoft**
- Communicated and collaborated effectively in **English** with the team

Flightio | full time 🔗

06/2022 – 05/2024

React developer | (1 year and 11 months)

- **Reimplemented** whole platform with new Figma design and using new technologies like **NextJs , redux-toolkit**
- Optimized performance using lazy loading, code splitting, React Server Components, SSR, and caching; improved Core Web Vitals and increased Lighthouse score by 40%
- Conducted rigorous code reviews to enforce best practices and maintain high code quality.

Arsh | full time

03/2021 – 07/2022

Front-End developer | (1 year and 4 months)

- Built a meeting planner and task management web app comparable to Google Calendar with **React**
- Customized calendar libraries to support Jalali (Persian) date system with using **Ant design**

Inotec | full time

03/2019 – 03/2020

React native developer | (1 year)

- Built a scalable financial mobile app in **React Native** with a modular architecture focused on performance and maintainability
- Implemented **Redux-Saga** for robust async state management, improving data flow reliability and reducing side effects
