

ZOHRE POURFARZAM

Senior React Developer

Tehran, Iran | +98 902 199 9724 | zohrefarzam@gmail.com | github.com/zohrefarzam

PROFESSIONAL SUMMARY

Senior React Developer with 5+ years of experience designing and building scalable, high-performance web and mobile applications using React, Next.js, TypeScript, and React Native. Skilled in front-end architecture, component reusability, and performance optimization, with a consistent record of improving Core Web Vitals and accelerating delivery through reusable design systems and well-structured codebases. Experienced delivering AI-powered platforms and collaborating on international, cross-functional projects with leading technology and research organizations. Comfortable working in Agile/Scrum teams, mentoring developers through code review, and communicating clearly with distributed, English-speaking stakeholders.

SKILLS

Languages: JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Next.js, React Native, Redux Toolkit, Redux-Saga

Styling: HTML5, CSS3, Tailwind CSS, LESS, Sass

Architecture & Integration: Front-End Architecture, GraphQL, RESTful APIs, Node.js, Monorepo Management

Tools & Practices: Git, Figma, Storybook, Unit Testing, PWA, Agile/Scrum, Prompt Engineering

Professional Skills: Problem-Solving, Mentoring, Cross-Functional Collaboration, English Communication

PROFESSIONAL EXPERIENCE

Impact AI

06/2024 – 01/2026

React Developer | Full-time | 1 yr 6 mos

Remote

- Architected and built an AI-powered platform to monitor and analyze AI products, integrating autonomous AI agents to automate internal workflows in partnership with international technology companies.
- Designed and implemented clean, intuitive user interfaces in Next.js from Figma specifications, translating complex requirements into responsive, accessible, production-ready components.
- Introduced the HeroUI component library, integrated Storybook for documentation, and established a monorepo architecture, improving design consistency, code reliability, and collaboration across front-end teams.
- Played a key role designing and developing a flagship project for a major international research collaboration.
- Collaborated daily with international, cross-functional teams in English across sprint planning and code reviews.

Flightio

06/2022 – 06/2024

React Developer | Full-time | 2 yrs

Tehran, Iran

- Led the reimplementation of the entire platform from a new Figma design system, adopting Next.js and Redux Toolkit to modernize the front-end architecture and improve long-term maintainability.
- Optimized application performance through lazy loading, code splitting, React Server Components, SSR, and caching strategies, increasing the Lighthouse performance score by 40% and improving Core Web Vitals.
- Conducted rigorous code reviews across the front-end team to enforce best practices, maintain high code quality, and support junior developers in adopting React and TypeScript standards.

Arsh

06/2019 – 06/2022

Front-End / React Native Developer | Full-time | 3 yrs

Tehran, Iran

- Built a meeting planner and task management web application comparable to Google Calendar using React, delivering real-time scheduling, event management, and team collaboration features.
- Customized third-party calendar libraries with Ant Design to support the Jalali (Persian) date system, enabling fully localized scheduling for Persian-speaking users.
- Collaborated with backend engineers to integrate RESTful APIs and ensured cross-browser, responsive UI.
- Developed a scalable financial mobile application in React Native, designing a modular architecture focused on performance, maintainability, and long-term scalability.
- Implemented Redux-Saga for robust async state management, improving data flow reliability and reducing side effects.
- Integrated secure RESTful APIs for transaction processing and wrote unit tests to ensure reliability.

EDUCATION

Bachelor of Electronic Engineering

2013 – 2018

Hamadan University — Hamadan, Iran

Languages: English — Professional Proficiency
